

YELLOW RIVER WATER TRAIL

RIVER FRONT RD ACCESS POINT

Description: This section of the Yellow River Water Trail begins at Porterdale's Riverfront Park along Riverfront Road, where there are picnic tables and benches here courtesy of the City of Porterdale. At normal water levels, boats can be launched above the class I-II shoals located below the dam. This section transitions from shoals to a long and scenic flatwater paddle with very few sandbars or places to stop along the route. One area along the riverbank is home to a large number of vultures that are frequently seen sunning themselves in the tops of the trees. If you paddle quietly, you may be able to sneak up on other wildlife such as North American River Otters, Belted Kingfishers, and even one of Georgia's threatened species such as Bald Eagles or Alligator Snapping Turtles.

Length: 10 miles from River Front Road Access to Hwy 212 Access

Difficulty: Flatwater to Class I-II depending on water level. Suitable for beginners/intermediates prepared for a long paddle.

Paddling Time: 4 hours

In an emergency:

- Call 911

Safety Tips:

- Wear your life jacket at all times
- Protect your feet
- Watch for strainers (avoid trees and debris along shores)
- Dress for the weather
